

PROMISING PRODUCT

Ideal for gardeners dealing with arthritis or other ailments, the Garden Kneeler reduces strain to your lower back and knees and protects clothes from dirt and stains. When you turn it upside down, it converts from a cushioned kneeler to a bench that lets you sit at the proper height for gardening. The kneeler folds flat for storage and holds up to 250 pounds. It is available for about \$48 at lawn and garden centers and www.YardButlerStore.com.
